Energy-efficient outdoor screen for Venlo greenhouses

ValkGreenTop

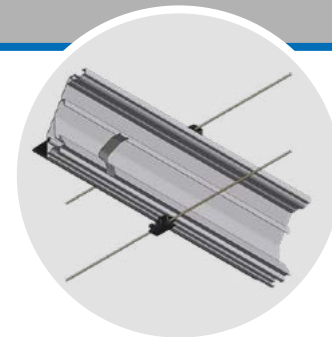

Lightweight, compact, less cooling, less heating, CO₂ concentrations

Unique components ▼

ValkScreenProfile

The **ValkScreenProfile VGT** is characteristic of this system is how well it withstands all the weather conditions that an outer screen has to endure.

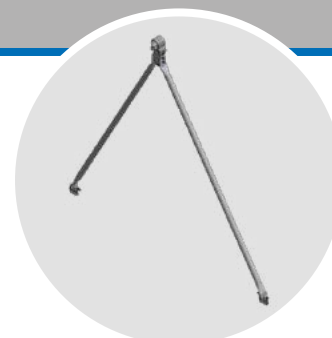

- ✓ unique design
- ✓ various lengths

ValkBraceBar

The **ValkBraceBar** is based on the ValkPushRods that have been the standard in push rods for greenhouse ventilation mechanisms for decades.

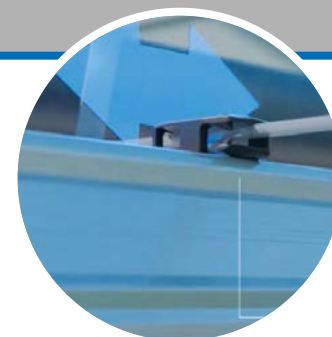

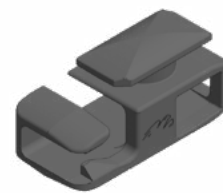

- ✓ entirely custom-made
- ✓ no additional ridge load

ValkWireGuide

The **ValkWireGuide VGT** makes sure that the profile and polyester wires can move independently from each other.

- ✓ easy to mount
- ✓ keeps screen cloth clean
- ✓ installation remains tension-free

 **ValkWireGuide**

Click on the QR-code 

ValkScreenClip

De **ValkScreenClip VGT** is fixed to the edge of the profile and does not have to be changed when changing the screen cloth.

- ✓ special weatherproof design
